### **TriNet Medical SRX: Your Trusted, HIPAA-Compliant EMR Solution**

#### **Committed to Protecting Your Patients' Health Information**

At **TriNet Medical**, we understand that nothing is more important than safeguarding **Protected Health Information (PHI)**. That's why our cloud-hosted Electronic Medical Records (EMR) platform fully aligns **with HIPAA standards**, offering robust security, privacy, and peace of mind for providers and patients alike.

#### **What is HIPAA?**

HIPAA (Health Insurance Portability and Accountability Act) protects sensitive patient data by requiring healthcare providers and vendors to implement strict privacy and security safeguards.

#### **Administrative Safeguards**

We help healthcare organizations manage HIPAA obligations:

**Business Associate Agreements (BAAs):** A signed BAA governs our partnership, defining our HIPAA responsibilities.

**HIPAA Training Support:** We provide best-practice guidelines for end-user security awareness and compliance.

**Incident Response Readiness:** Our platform includes built-in breach detection and notification protocols.

#### **How TriNet Medical SRX Ensures HIPAA Compliance**

- Data Encryption (AES-256, TLS 1.2+)
- Role-Based Access Controls
- Real-Time Audit Logging
- Signed Business Associate Agreements (BAAs)
- Secure Cloud Hosting & Disaster Recovery
- Built-in Incident Response Protocols

#### **Trusted by Healthcare Professionals**

Whether you're a small clinic or a growing healthcare network, TriNet Medical SRX is your partner in HIPAA compliance. Our platform is designed to reduce the burden of regulatory management, so you can focus on "patient care", not paperwork.
